

## IT Consultant

---

Driven, loyal and precise are words that describe me well. As a team player, I do not only take into account the interests of the customer, but also those of my colleagues and manager. My affinity with the languages C#, JavaScript, Typescript and PHP enables me to quickly and efficiently realize an idea.

## WERKERVARING

---

06/2022 - present

### **IT Consultant – Ciratum**

I am currently following the Ciratum Traineeship. This is a series of training courses that cover IT-related topics as well as training courses on general business operations and workflows, such as DevOps.

02/2021 - 02/2022

### **Software Developer – XR Group**

XR Group offers high-end 3D solutions that can be expanded into a true experience. An experience made possible by Virtual Reality, Augmented Reality and Mixed Reality.

With this so-called XR technology, products are presented in a unique way, employees trained in a more efficient way and/or business processes are made more transparent

As a Software developer it was my job to translate the solutions into reality. Examples I had worked on:

- An AR treasure hunt WebApp
- A Web renderer
- VR Multiplayer Showroom

01/2018 - 08/2022

### **All-rounder employee – SnackPoint Caddy's**

09/2016 - 09/2019

### **All-rounder employee – McDonalds**

My SQL  
SQL  
HTML/CSS  
Bootstrap
